

We want all our visitors to have a comfortable theatre experience.

Rothes Halls is fully accessible, with:

- Accessible entrances and automatic doors.
 - Induction loop in main auditoriums.
- Accessible adapted toilet facilities on ground and first floors, including an adult changing place toilet.
 - All floors of the venue accessible via a lift.
- Ample disabled parking spaces available in the adjacent car parks.
 - Guide dogs welcome at all our venues.

We have 6 wheelchair spaces available in the main auditorium for our events. It would help us greatly if you booked for a space in advance. Please notify Box Office if you have any special requirements.

If you have any queries about your visit to Rothes Halls that aren't answered here, please contact the Box Office directly.

Children

Baby changing facilities are available on the ground floor. Rothes Halls supports breast feeding. If you wish to use a private area, please ask at reception. High chairs are available in the café.

Babe in Arms (under 2s)

Bring your baby with you (sitting on your knee) for FREE when attending films and many shows at our theatres. Just select an adult & baby ticket when booking your performance so we register attendance and we can then support you in our venues.

Please note the tickets will only be available for suitable performances and will exclude shows programmed specifically for that age group.
